Smuckler Custom Builders Peoples Choice Award was for an 8,640 sq. ft. European style home overlooking Rush Creek Golf Course in Minnesota. Some of Jack Smuckler's other awards include **the Reggie Award of Excellence, the Trillium Award for Best Architecture, the ROMA Award for Top Remodeler, A.I.A. Award for Design Excellence, the Renaissance Design Award and recognition as "A Leading Residential Architect" in 2005 by a nationally published book.**

Jack Smuckler offers his clients what few area builders can: purity of artistic vision. Combining architectural and construction services, asserts Smuckler, one of only a few registered architects in the Twin Cities who build their own designs, eliminates the possibility of flawed interpretation. "If you follow through and translate your own vision into reality," he says, "you have a much better idea of what the end result should look like."
